

HOMGE CNC Machine Vice with 130 mm jaw width and clamping range 0-190 mm

40404130

Compact machine vice for light / medium machining tasks on CNC machines. Made of high quality steel and with the patented MULTI-POWER SYSTEM which doubles the clamping force. The vice can achieve a maximum clamping force of 4500 kg, and the patented system ensures repeatability of the clamping force.

- Jaw width: 130 mm
- Clamping range: 0-190 mm
- The guide rails are hardened to HRC 50.
- The vice is made of cast steel GGG60 which ensures maximum precision and durability. The body is also made in one piece which means that the deformation is less than 0.01 mm with a clamping force of 4500 kg!
- Thanks to the ANGLE-LOCK SYSTEM, workpieces are held down and tightened precisely during clamping.
- Clamping force can be set by means of a ring and therefore makes it possible to quickly repeat the same desired clamping force.
- The vice can be used horizontally, vertically and sideways.
- The following is included with the vice: 2 sets of T-nuts, 2 sets of fixing clamps and clamping key

Product details

Item no.	40404130
EAN	5708004017837
Customs tariff	8466202000
Sales Quantity	1

Product specifications

Barcode	5708004017837
Base width	131 mm
Base height	95 mm (± 0,01 mm)
Jaw width	130 mm
Jaw height	55 mm
Clamping method	Mekanisk tilspænding
Serial no.	HPAC-130
Clamping force	8000 kg
Clamping width	0-190 mm
Slot size on vice	18 mm
Total length	583 mm
Gross weight	49.000 kg
Net weight	47.000 kg
